List of Tables

| | | |
|-----|--|----|
| 2.1 | A test long table (see [Dallas 1992] and section 2.3 | 16 |
|-----|--|----|

List of Figures

2.1 A cat 12

2.2 Another cat with a link inside it, so see [Dallas 1992] xxxx . 12

Chapter 1

First part, leading to section 1.1 next

1.1 Our L^AT_EX test section (leading to section 1.2) for 100% of Æhorrid $X[Y]Z$ things, like 42

and so see section 1.1 on page 3.

1.2 Section One — cats

see section 2.1 on page 7 about cats and cite [1]

1.3 one.1 – can we see

some text with a footnote¹ and another one with an extended footnote² and
a reference to a long table, Table 2.1.

III – 1 one.2

dogs

[See page 2 in file test2](#), on page 3 of this file.

[See page 2 in file test2.pdf](#) on page 3 of this file.

And can we see ??

¹WISH UPON A STAR

²This is the way the world ends not with a bang but a whimper. This is the way the world ends not with a bang but a whimper. This is the way the world ends not with a bang but a whimper.

in the file test2.pdf? alternatively, [the link like this](#)

All Or this? [test2.pdf\#section.1](#)

1.4 Section Two — T_{EX} is a dog

IV – 1 two.1

IV – 2 two.2

cite [1] again.

Chapter 2

Second part

2.1 Section Three — Camels

see [section 1.2](#)

I – 1 three.1

some text with a footnote¹

I – 2 three.2

¹OVER THE RAINBOW

2.2 Section Four — Butterflies and so on

II – 1 four.1

II – 2 four.2

camels Refer to **with these words**

2.3 Introduction

III – 1 subsec

III – 2 subsec

Define a marker here while this one is a PostScript picture acting as marker:

This is a picture:

2.4. TWO

11

2.4 two

IV – 1 Subsection 2

IV – 2 Subsection 3

2.7 Back to math

$$zzzz + b \tag{2.1}$$

and what next?

$$d - e \tag{2.2}$$

$$y = z \tag{2.3}$$

$$g = h \tag{2.4}$$

$$\tag{2.5}$$

We need some lists:

1. oranges
2. lemons
3. beer
 - (a) Samuel Smiths
 - (b) Labatts

Lets look at labels in lists:

1. oranges
2. lemons
3. beer
 - (a) Samuel Smiths
 - (b) Labatts

from which see [item 1, 2, 3a](#) and [item 3b](#)
see sec1: [section 2.3](#) sec2: [section 2.4](#) eq1: [Equation 2.1](#) fig1: [Figure 2.1](#)
and cite [\[1\]](#) again.

Table 2.1: A test long table (see [Dallas 1992] and section 2.3

[illegible]

a a b c

a

Does [this](#) point to the second equation?
Does anything point to the eqnarray ([Equation 2.5](#))?
